The Mending Circle

Instructors: Mary Evelyn Gunn and Casey Newton

In this loosely structured class we will gather to share with one another our experiences with mending and all things fiber arts. We will explore why certain mending techniques work and how to implement them in a decorative yet practical way! Hand mending is a very slow process that can be done just about anywhere and practicing it can be a form of meditation that takes us out of our hectic world for a moment....so slow down with us and save your favorite pair of jeans at the same time!

Please bring along a well loved item(s) of clothing* and we will begin the process of giving it a new life. All other supplies will be provided and all skill levels are welcome. Space limited to 10.

TAKE OLD WORN JEANS AND ADD FABRIC AND EMBROIDERY!

*Items most suited for mending: jeans, flannels, outerwear, sturdier items. Items not suited: t-shirts, leggings, sportswear and other thin knitwear.
